

Remoteus Check for Broadband Operator

Business Advantage

- IT Support service is a business, not a cost. You can always invoice a support case.
- Some of the IT support Services can easily be outsourced.

Profitable IT Care

- Support cases are in your email; it is easier to manage the IT support resources.

Fewer Unnecessary Support Cases

- With Remote Check, it is easier to pinpoint customer's problem; if it is the broadband connection or the computer itself.

Added Value in Computer Care

- Operators and customers experience improved IT security because the computers' health is in better shape.

Customer Satisfaction

- A satisfied customer does not change the service provider easily, especially when the competitor does not offer the same benefits and services.

Advertisement Value

- Your logo is visible to the customers.

Media Channel

- In the future, you can send news and special campaigns directly to your customers desktop.
